

About us

Beninca Automations Private Limited

is a subsidiary of of Automatismi Benincà SpA - Italy which has more than 42 years experience in the gate automation industry and was founded in the year 1979.

Beninca in India has three offices in India. They are located in Bangalore, Cochin & New Delhi, and are well situated to serve all regions in India. We have some of the most innovative and reliable entrance automation and security products.

Our strategy is simple, we offer quality, reliable products to industry professionals with quick deliveries and we stand out for our amazing technical support & customer service.

We are all about people not just products. And we believe in maintaining a healthy business relationship with our customers. Problem solving, not just selling. Our service doesn't end with a sale. We also focus on training our dealers and installers to become specialists in the entrance automation industry.

Our customers are the most important aspect of our business, we keep things simple and have the flexibility to offer that personal touch to our pre-sales and after-sales service.

The Benincà group consists of 6 brands each specialising in technological solutions for the safety of residential, commercial and industrial segment.
